EDUCATION

Electronics and Communication Engineering
Maulana Azad National Institute Of Technology | Bhopal, Madhya Pradesh
06/2016 - 11/2020   *CGPA: 6.51/10*

12th Class
Annandale High School | Annandale, VA
05/2015 - 03/2016   *Percentage: 92.8/100*

10th Class
Annandale High School | Annandale, VA
05/2014 - 03/2015   *Percentage: 93.2/100*

PERSONAL PROJECTS

Support Desk (MERN Stack)
- Developed a support desk website with CRUD functionality using React.js, Node.js, and MongoDB.
- Implemented user authentication and authorization using JWT tokens for secure access to the support desk features.
- Created APIs for efficient database queries and integrated them with the frontend using Axios, ensuring smooth data retrieval and manipulation.
- https://support-desk-app-6igy.onrender.com/

House MarketPlace
- Designed the front-end using React.js and implemented a mobile-first design approach
- Used Firebase as a back-end for user authentication and authorization and integrated Google OAuth as well
- https://house-marketplace-lilac-mu.vercel.app/

Neofi Project
- Created a live Cryptocurrency price fetching web application using Binance API, React, and Tailwind CSS.
- Integrated WebSocket API for real-time updates and over 200 Cryptocurrency options.
- Implemented an INR-to-Crypto conversion feature for instant calculation of Crypto amounts.
- https://neofi-project.vercel.app

Github Finder
- A web application that fetches and displays user and user information from Github's Rest API using Axios
- Built the front-end using React.js, Tailwind and daisyUI
- https://github-finder-two-taupe.vercel.app
